HAZWOPER 40hr Course

HAZWOPER 40 is required for workers that perform activities that expose or potentially expose them to hazardous substances.

This course is specifically designed for workers who are involved in clean-up operations, voluntary clean-up operations, emergency response operations, and storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste sites. Topics include protection against hazardous chemicals, elimination of hazardous chemicals, safety of workers and the environment and OSHA regulations. This course covers topics included in 29 CFR 1910.120.

Note: Trainees must have additional hands-on training in the donning, doffing, and use of the Personal Protective Equipment required for their jobsite(s) in accordance with 29 CFR 1910.120.

Workers must also have 40 hrs of initial training before they may enter the site and at least three days of actual field experience under a trained, seasoned supervisor. The three days field experience under a trained, experienced supervisor is the responsibility of the student employer or potential employer.

HAZWOPER 24 Hour Course

HAZWOPER 24 Hour is required for employees visiting an Uncontrolled Hazardous Waste Operation mandated by the Government.

This course covers 24 hours of instruction, required by 29 CFR 1910.120(e) (3), OSHA's Hazardous Waste and Emergency Response training standard. This course is designed for workers on site only occasionally for a specific limited task and who are unlikely to be exposed over permissible exposure limits and published limits OR workers regularly on site who work in areas which have been monitored and fully characterized indicating that exposures are under permissible exposure limits and published exposure limits, where respirators are not necessary, there are no health hazards or the possibility of an emergency developing. This course is comprised of 14 sections, covering topics pertaining to work place hazards associated with Hazardous Waste Operations and Emergency Response (HAZWOPER). Upon successful completion of the course, you will receive a certificate of completion which is accepted by OSHA as documentation of training.

Note: Workers must have 24 hours of initial training and one day of supervised field experience before they are allowed to enter the site. **The online course meets the standard requirement of 24hrs of initial training. The one day field experience under a trained, experienced supervisor is the responsibility of the student's employer or potential employer.

HAZWOPER 8 Hour Course

This course meets the requirements outlined in OSHA 29 CFR 1910.120 for 8 (eight) hours of annual refresher training for workers at hazardous waste sites. This course is designed for general site workers who remove hazardous waste or who are exposed or potentially exposed to hazardous substances or health hazards. The course is comprised of nine sections covering topics pertaining to workplace hazards

associated with Hazardous Waste Operations and Emergency Response (HAZWOPER). Topics include HAZWOPER regulations, Site Characterization, Toxicology, Hazard Recognition, Personal Protective Equipment, Decontamination, Medical Surveillance, Confined Space Entry and Emergency Procedures. Upon successful completion of the course you will receive a certificate of completion which is accepted by OSHA as documentation of training.
